# acknowledgements

This language guide is the latest iteration of a project which began seven years ago. The first version was created by Spanish-speaking staff at Washburn Center for Children in collaboration with members of the Consorcio's predecessor, the Hennepin County Spanish-Speaking Provider Consortium. Consultation with linguistic experts and staff time to create that original guide was funded by a capacity-building grant from the Hennepin County Children's Mental Health Collaborative. We want to thank all the individuals who have contributed to versions of this guide over time.

As always, revisions and additions to this guide highlight the complexity and diversity of the Spanish language. We have joked that if we ask three native Spanish-speakers from three different countries how to say something, we get eight "definitive" answers. We also may be told that under no circumstance should you use at least one of the definitive answers someone else provided. That in and of itself speaks to the need for this type of guide in a community where dozens of Spanish-speaking Latino communities are present.

If you wish to add information, please contact us at [elconsorciomn.org](http://elconsorciomn.org).

Thank you,  
El Consorcio  
September 2021

# Roles

Case Manager --- coordinador/a del caso/de casos

Clinical Social Worker --- trabajador/a social clínica o en el ámbito

Counselor --- consejero/a

Psychologist --- psicólogo/a. Proporcionan terapia y exámenes psicológicos

\*Good explanations for the difference between  
psychologists and social workers:

- Los psicólogos se enfocan más en lo que pasa adentro de una persona o en la parte interior (sentimientos o emociones, pensamientos, antecedentes)

- Los trabajadores sociales en el ámbito clínico se enfocan en eso pero también prestan mucha atención en lo que pasa entorno o en el medio ambiente, alrededor de la vida de una persona, mientras que exploran la parte interior

- Nosotros tratamos de entender lo que está pasando ahora en su vida para poder identificar factores de estrés; creemos que eso nos ayude enfrentar la parte interior más efectivamente

Psychiatrist --- el/la psiquiatra, da medicina y terapia

Psychiatric Nurse Practitioner --- enfermera/o practicante en psiquiatría,  
asistente del psiquiatra

Skills worker/trainer --- entrenador/a o facilitador/a de conductas o  
habilidades

Social Worker --- Trabajador/ a social

Therapist -- el/ la Terapeuta - *terapista* is also used but not correct.

Service minutes --- minutos de servicio, duración en minutos de los servicios proporcionados

Speech therapy --- terapia del habla

# Case Management Supplemental Information

Children's Mental Health Case Management (CMHCM) services help assess client service needs; arrange additional mental health services, social services, educational services, and other community-based supports; coordinate services to clients across settings; and help ensure client and family participation in identified services. Children may receive CMHCM until the age of 18, or until 21 if still involved with special education services.

To be eligible for CMHCM services, children must have a mental health diagnosis listed in the DSM-5 and fulfill at least one of the criteria for a Severe Emotional Disturbance (SED) listed below:

- Admitted within last three years or at risk of being admitted to inpatient treatment or residential treatment
- Minnesota resident receiving inpatient treatment or residential treatment through interstate compact
- Child has one of the following as determined by mental health professional:
  - psychosis or clinical depression
  - risk of harming self or others
  - symptoms resulting from being a victim of physical or sexual abuse or psychic trauma within the past year
  - Child has significantly impaired functioning (home, school, or community) that has lasted at least one year or that in the written opinion of a mental health professional presents risk of lasting at least one year

In Hennepin County, uninsured children, children with straight Medical Assistance, or children with commercial insurance plans must be assessed for services by Hennepin County Front Door (612-348-4111). Children with PMAP insurance plans may be assessed for services by staff at any of the agencies identified as providing CMHCM services.

To expedite the assessment process, be sure to indicate that your client meets SED criteria and recommend CMHCM services as medically necessary in the recommendations section of your Diagnostic Assessment. The Diagnostic Assessment needs to be less than 180 days old at the time of referral. For additional information about accessing Children's Mental Health Case Management, please contact your client's county of residence.

# Children's Therapeutic Services and Supports (CTSS) Services Supplemental Information

Children's Therapeutic Services and Supports (CTSS) services are therapeutic and rehabilitative services designed to treat mental health conditions which are limiting a client's ability to function in age- and developmentally-appropriate ways. CTSS services are meant to help clients regain levels of functioning which had deteriorated due to their mental health difficulties, or to diminish delays in their development caused by their experience of mental health problems. CTSS goals are accomplished through psychotherapy, skills training, and crisis assistance, and at times also through day treatment, therapeutic preschool, and/or mental health behavioral aide services.

In order to expedite a client's assessment for CTSS services, their Diagnostic Assessment must include a comprehensive DMS 5 diagnostic formulation and state that CTSS services are medically necessary. The Diagnostic Assessment must be less than 180 days old at the time of the referral for services. Clients may be referred directly to a CTSS provider for their initial evaluation for services.

Additional information regarding CTSS service components and eligibility can be found on the Minnesota DHS website: [www.dhs.state.mn.us](http://www.dhs.state.mn.us)

# In-Home Therapeutic Services

## **Early Childhood Programs (birth-kindergarten)**

Programs focus on strengthening parent-child relationships and supporting children's improved social, emotional, and behavioral functioning across settings

### **The FACTS Early Childhood Mental Health Program, FACTS**
